To: All Students

Subject: Consolidated SPOC Directory: Who to Contact for What

The two tables below together give every field needed to reach the right person, keyed by task. A single 8-column table put Designation/Department/Email so narrow that reportlab had to break words mid-token to fit (the same failure mode fixed in the scholarship eligibility matrix above) — splitting into two task-keyed tables gives every column enough width to wrap only on whole words or at the '@' in an email address, at the cost of repeating the Task column once.
